

# OEM

## December 2014 Update

Due to the switch from DVDs to USBs there have been changes regarding what material is now available.

If you have any questions or concerns, please contact your distributor.

### What's New:

- Technical Training can now be found online at [John Deere University](#).
- For information regarding service pricing guides, please contact your distributor.
- Instead of a What's New page, new technical manuals are now highlighted in yellow and updated manuals are highlighted in gray within their respective category.

**JOHN DEERE** OEM Engine Service USB United States Canada

Component Technical Manuals >  
Operator's Manuals >

## Navigation

### Top Navigation / Header

The header will be seen on every page that is within the OEM site. If you do not see the header, you may be viewing a document such as a PDF or a Word document.

The OEM text is a link to the home page

### Footer

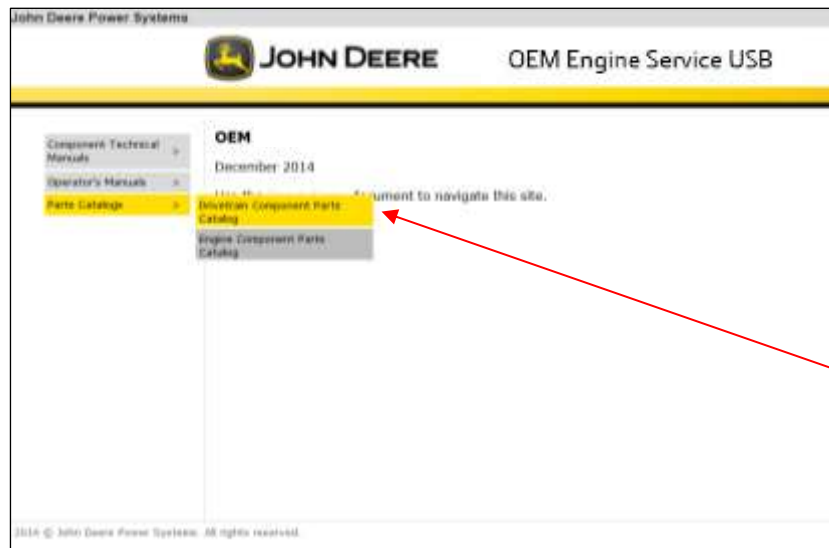

The footer will be seen on every page that is within the OEM site. If you do not see the footer, you may be viewing a document such as a PDF or a Word document.

The Home text is a link to the home page

### Left Navigation

The left navigation is different for each section on the site.

The entire box that includes the text is NOT a link. You will need to hover and click on that text to be taken to the new page.
